The international activity generated turnover of €664.6 million (51.3% of consolidated turnover), an increase of 2.3% (+0.5% on a like-for-like basis), with mixed performances in the different geographical areas: Southern Europe +4.7%; Northern and Eastern Europe -3.3%.

Our active development strategy has been confirmed by the investments made over the last three years in the recruitment of expert consultants, digitisation and IT tools, intensive training initiatives for temporary and permanent employees, and the positioning of SYNERGIE, which is now a leader in several growth sectors.

Confident in its performances and benefiting from a stronger financial structure, the Group is actively seeking opportunities for external growth, primarily in Europe.
